

Internet Release Form

Catalina Council realizes that for the Council web site to be effective that at times information of volunteers must be used. Before volunteer information can be posted on the Council web site (which includes District and Order of the Arrow pages), that volunteer must have the following release form on file with the Catalina Council office. Only that information that is of worthwhile benefit to Catalina Council and the Scouting program will be used. In this regard, Catalina Council will follow all items outlined in the "Catalina Council Internet Guidelines," Article I "Youth / Member Protection."

Should it ever become necessary to have your information removed from the council web site, call or email notification to catalinacouncil@catalinacouncil.org, and your information will be removed as soon as is practically possible.

The first portion of the release form should be completely filled out for Catalina Council's use if notification is necessary and any information contained in this portion will not be used on the web site. The second portion is information the volunteer wishes to allow Catalina Council to use on their web site. NOTE: As noted in internet guidelines, youth member phone numbers will not be published on the site. The third portion is the signature portion granting use of information. Youth members must have the signature of a parent or guardian.
